

*You are cordially invited to
Welcome Spring in our
colorful Gardens*

THE THIRTEENTH ANNUAL OUTDOOR BULB SHOW

Saturday, MARCH 8, daily
through Sunday, APRIL 13, 1947

... In our *SHOW GARDENS* at NILES

ONCE MORE the cheerful time has come to welcome you to the first major garden event of the new year. If you are an "old hand" at our Bulb Shows you will surely be here, with your family and friends. If you look forward to your first visit, I can assure you that we have prepared the finest Show in our entire history. Here are some of the attractions you will enjoy:

- 100,000 bulbs in bloom, including the latest introductions and all the popular favorites; tulips, daffodils, iris, and many others.
- The opportunity to compare varieties blooming side by side, the ideal time to select your list for Fall planting.
- A background of colorful flowering trees.
- The intimate gardens of historic "Old Adobe", venerable hacienda of the Vallejo family, "all dressed up," for the advent of Spring.
- On week-ends; conducted bus tours of our "300 Living Acres", music in the Early California manner, and light refreshments.

Will you be our guest for a day? There is no charge or obligation. We will expect you.

George C. Roeding, Jr., President
CALIFORNIA NURSERY CO.

How to use this BULB LIST to order your favorites

THE LIST inside makes ordering your entire bulb garden for 1948 easy and pleasant. Check the varieties you prefer as you leisurely walk through the beds of flowers, **note the desired quantity of each** in the space provided at the left of each listing. Attach your check (adding 2½% sales tax) and hand with this list to one of the girls in Dutch costumes. Be sure your name and correct address are shown on address fold.

Your order, placed now, will be given preference for delivery next Fall, at the proper planting season. If prices should increase you will be protected at present rates; if they should decrease, we will credit you by sending additional bulbs, our selection.

Mail orders will receive careful attention.

Note: This is the only complete Bulb List we will be able to furnish. The large assortment of varieties cannot be shown in our Fall "Orchard & Garden Book", so it is to your advantage to preserve this list, and use it for placing your order this Spring.

PLEASE BRING THIS FOLDER WITH YOU

- ... it will serve as your "program" to identify the varieties displayed.
- ... use it to order the bulbs now which you want us to ship you when planting season comes next Fall.

Plant the Cream of the Crop, for Results that are

EACH YEAR since they were introduced in 1932 has seen an increase in their popularity. Always, quality has been our first consideration, for we know how much it means to the success of your planting. All quotations are for bulbs of the highest grade the market affords. Our Daffodils are DOUBLE-NOSE Bulbs, which means that they produce two flowers per bulb, compared with one flower produced by the usual grade. Our Tulips and other bulbs are selected with equal care, to assure the excellent results you naturally expect from Roeding's Quality Bulbs.
